

HOPPER

Hopper clearly bears resemblance to the traditional picnic tables everybody knows, but as is typical of Extremis it offers extra comfort. The four pass through zones make it easy to get in and out of Hopper without having to lift your leg over the bench or disturbing your table-companions. Its slanted legs and tabletop edges are a clear reference to the hop poles that are so characteristic of the Westhoek region. If you turn around, you can use the tabletop as a comfortable back rest.

HOPPER SUMMER BBQ

Hopper is yet another casebook example of the Extremis philosophy: gathering people round a piece of outdoor furniture which unites functionality and innovation.
