

Motif™

Personalize vertical surfaces with a modular collaborative panel system.

Motif's inspired design complements any interior aesthetic while its functional writing surface enhances collaboration.

PolyVision Motif

Collaborate Anywhere

As the need for collaboration grows, teams need more functional spaces to work.

Motif is a high-performance collaborative panel system that can be configured in countless ways to turn unused wall spaces into places where teams express and share ideas together. Three standard sizes allow for flexible compositions in a variety of locations, from traditional settings such as private offices and conference rooms, to more innovative placements in cafés, lounge areas and corridors.

7673 Merle CS, Custom Color

Enhance Design

Use Motif to express an organization's culture or design style using combinations of five neutrals and five accent patterns – or your own custom images or colors. Classic neutral tones allow Motif to integrate quietly into any new or existing space while accent colors, with specially-designed grid patterns, were selected to add a degree of energy and stimulus to collaborative sessions – an ideal combination of design and function.

Countless Configurations

Motif panels provide an elegant, artful addition to any interior space. Arrange the three standard sizes to create countless compositions and artistic expressions. Use Motif to craft thoughtful negative space with positive colors and patterns or to explore themes of repetition, contrast, balance and symmetry. Position panels to flow one into the next or add bursts of color to accent a collaborative wall.

PolyVision CeramicSteel

Combining the finest qualities of porcelain and steel, Motif panels are made with PolyVision a³ CeramicSteel. The smooth glass-like surface is magnetic, highly legible and easy to clean. PolyVision a³ CeramicSteel is resistant to scratches, stains, fire and bacteria. Colors and imaging will never fade, providing lasting durability for every design. PolyVision a³ CeramicSteel is 99.9% recyclable.

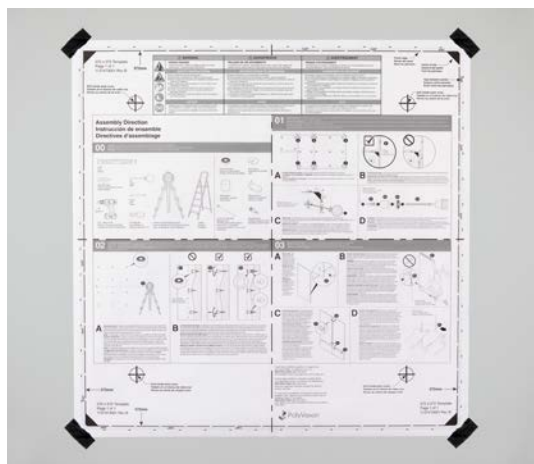

CeramicSteel

Hassle-free Installation

Motif panels are lightweight and easy to install with no visible mounting hardware. Templates, spacers and a unique mounting system make it nearly effortless to achieve the desired configuration. As needs evolve, panels can be reconfigured for another space or existing compositions can be refreshed with new panel colors.

Features

- Frameless
- Lightweight
- Easy to install
- Horizontally and vertically configurable
- 0.24" / 6 mm spacing between panels
- Concealed mounting
- Colorfast—will not fade
- Easy to clean
- Friction-free writing surface
- Strong magnetic capability
- Smooth, inert surface
- Scratch, stain, bacteria, chemical and fire resistant

Ideas for Use

Leverage vertical wall space in all types of collaboration areas:

- Conference rooms
- Design studios and project rooms
- Classrooms and training spaces
- Libraries
- Enclaves
- Private offices and individual workspaces
- Lounge areas and lobbies
- Administrative spaces
- Cafés and breakrooms
- Corridors and hallways

Surface Imaging + Customization

Use Motif to express your organization's own creativity. In addition to the standard neutrals and accent colors, custom artwork, company logos and images can be printed on any small square and large square Motif panels. PolyVision's state-of-the-art printing technology means colors and images will not fade over time, providing long-lasting inspiration and overall design appeal.
