Welcoming Wellbeing.

Acoustic comfort is crucial in the office. The Divisio Acoustic Screen offers a great sound absorption coefficient of 0.7 while providing privacy, ensuring wellbeing for workers in the open plan.

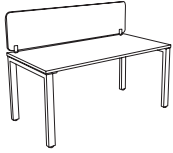

A RANGE OF AESTHETICS

The Divisio Acoustic Screen is available in a broad range of fabrics, allowing personalization of texture and colour. With rounded corners and detailed zipper design available in seven colours, the floor and desktops screens provide a warm and welcoming feeling to any office.

DESIGNED FOR SUSTAINABILITY

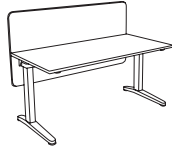

The Divisio Acoustic Screen is composed of only three materials — PET, steel and fabric. With a craft sewn fabric, the screens are produced without glue, allowing easy disassembly. All its components are recyclable.

STATEMENT OF LINE

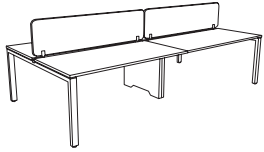

Privacy above the desk

SUSTAINABILITY

Each stage of the life cycle is considered on the product development process: from materials extraction, production, transport, use and reuse, until the end of its life.

The Divisio Acoustic Screen is composed of only three parts made of PET, Steel, and Fabric. No gluing processes/water-based glue in the assembly.

It is manufactured close to customers, in Europe and it has Eco-smart ++ packaging that minimizes weight and volume.

Designed for a long product life.
Replaceable parts and easy disassembly.

DESIGNED FOR ACOUSTIC COMFORT

Inspired by our research into privacy, attention at work, engagement and creativity, Steelcase has identified several different planning approaches that incorporate key design principles to increase acoustic comfort within a workplace floor plan. The best option for any organization depends on its culture, workforce mobility strategy, processes, protocols and real estate holdings.
