Structuring space into good neighbourhoods

Work has significantly changed in the last decade, but most office spaces have not. A balance between open and private spaces empowers employees to choose the best space for their needs. The more choice and control employees have over their work experience, the more

satisfied and engaged they are in their work. Share It Collection provides choice by structuring space into “good neighbourhoods” — places where individuals and teams feel comfortable to interact, share and focus.

88%

Percentage of highly engaged and highly satisfied workers who have control over where and how they work in the office, depending on the task.

Steelcase Global Report: Engagement and the Global Workplace, 2016.

Share It Workstations

The center of the neighbourhood is the Share It Workstation, a place that welcomes users to an experience where their needs have been carefully considered. It features an integrated fixed-height desk or height-adjustable desk that encourages posture change, along with inviting light at the workstation, privacy for focused work, storage for personal items and areas to share information with others.

18-0101458 | SHARE IT WORKSTATION (2LBW/AT14), OLOGY BENCH (2LBW/ZW), DIVISIO FRAMELESS SCREEN (HU A13), STEELCASE SERIES 1 TASK CHAIR (5T29/5U26/AT21/05), SHARE IT STORAGE (2LBW/ZW), B-FREE BEAM (WM/CODA 116), B-FREE OCCASIONAL TABLE (2LBW/ZW)

18-0101460

CHANGE POSTURES

Integration of height-adjustable desks allows a seamless transition between seated and standing work without leaving the workstation, which supports wellbeing within the neighbourhood.

18-0101464

PERSONAL STORAGE

Laterals, drawers and towers keep items within reach and provide the ability to lock and store devices and belongings. The open shelves provide space for storage or display.

18-0100377

COLLABORATE

Lounge seating next to the workstation invites workers to connect quickly to work through ideas without leaving their workspace, saving time and energy.

18-0101458 | SHARE IT WORKSTATION (2LBW/AT14), OLOGY BENCH (2LBW/ZW), DIVISIO FRAMELESS SCREEN (HU A13), STEELCASE SERIES 1 TASK CHAIR (6T29/5U26/AT21/05)

Focus

Integrated storage elements provide natural boundaries and shelter users at the workstation. Optional screens enhance the level of privacy and are pinnable for notes, photos or information.

18-0101469

A PLACE FOR YOUR BAG

Storage at the workstation creates the perfect place for your bag, keeping it off the floor and easily accessible.

18-0101466

SENSE OF WELCOME

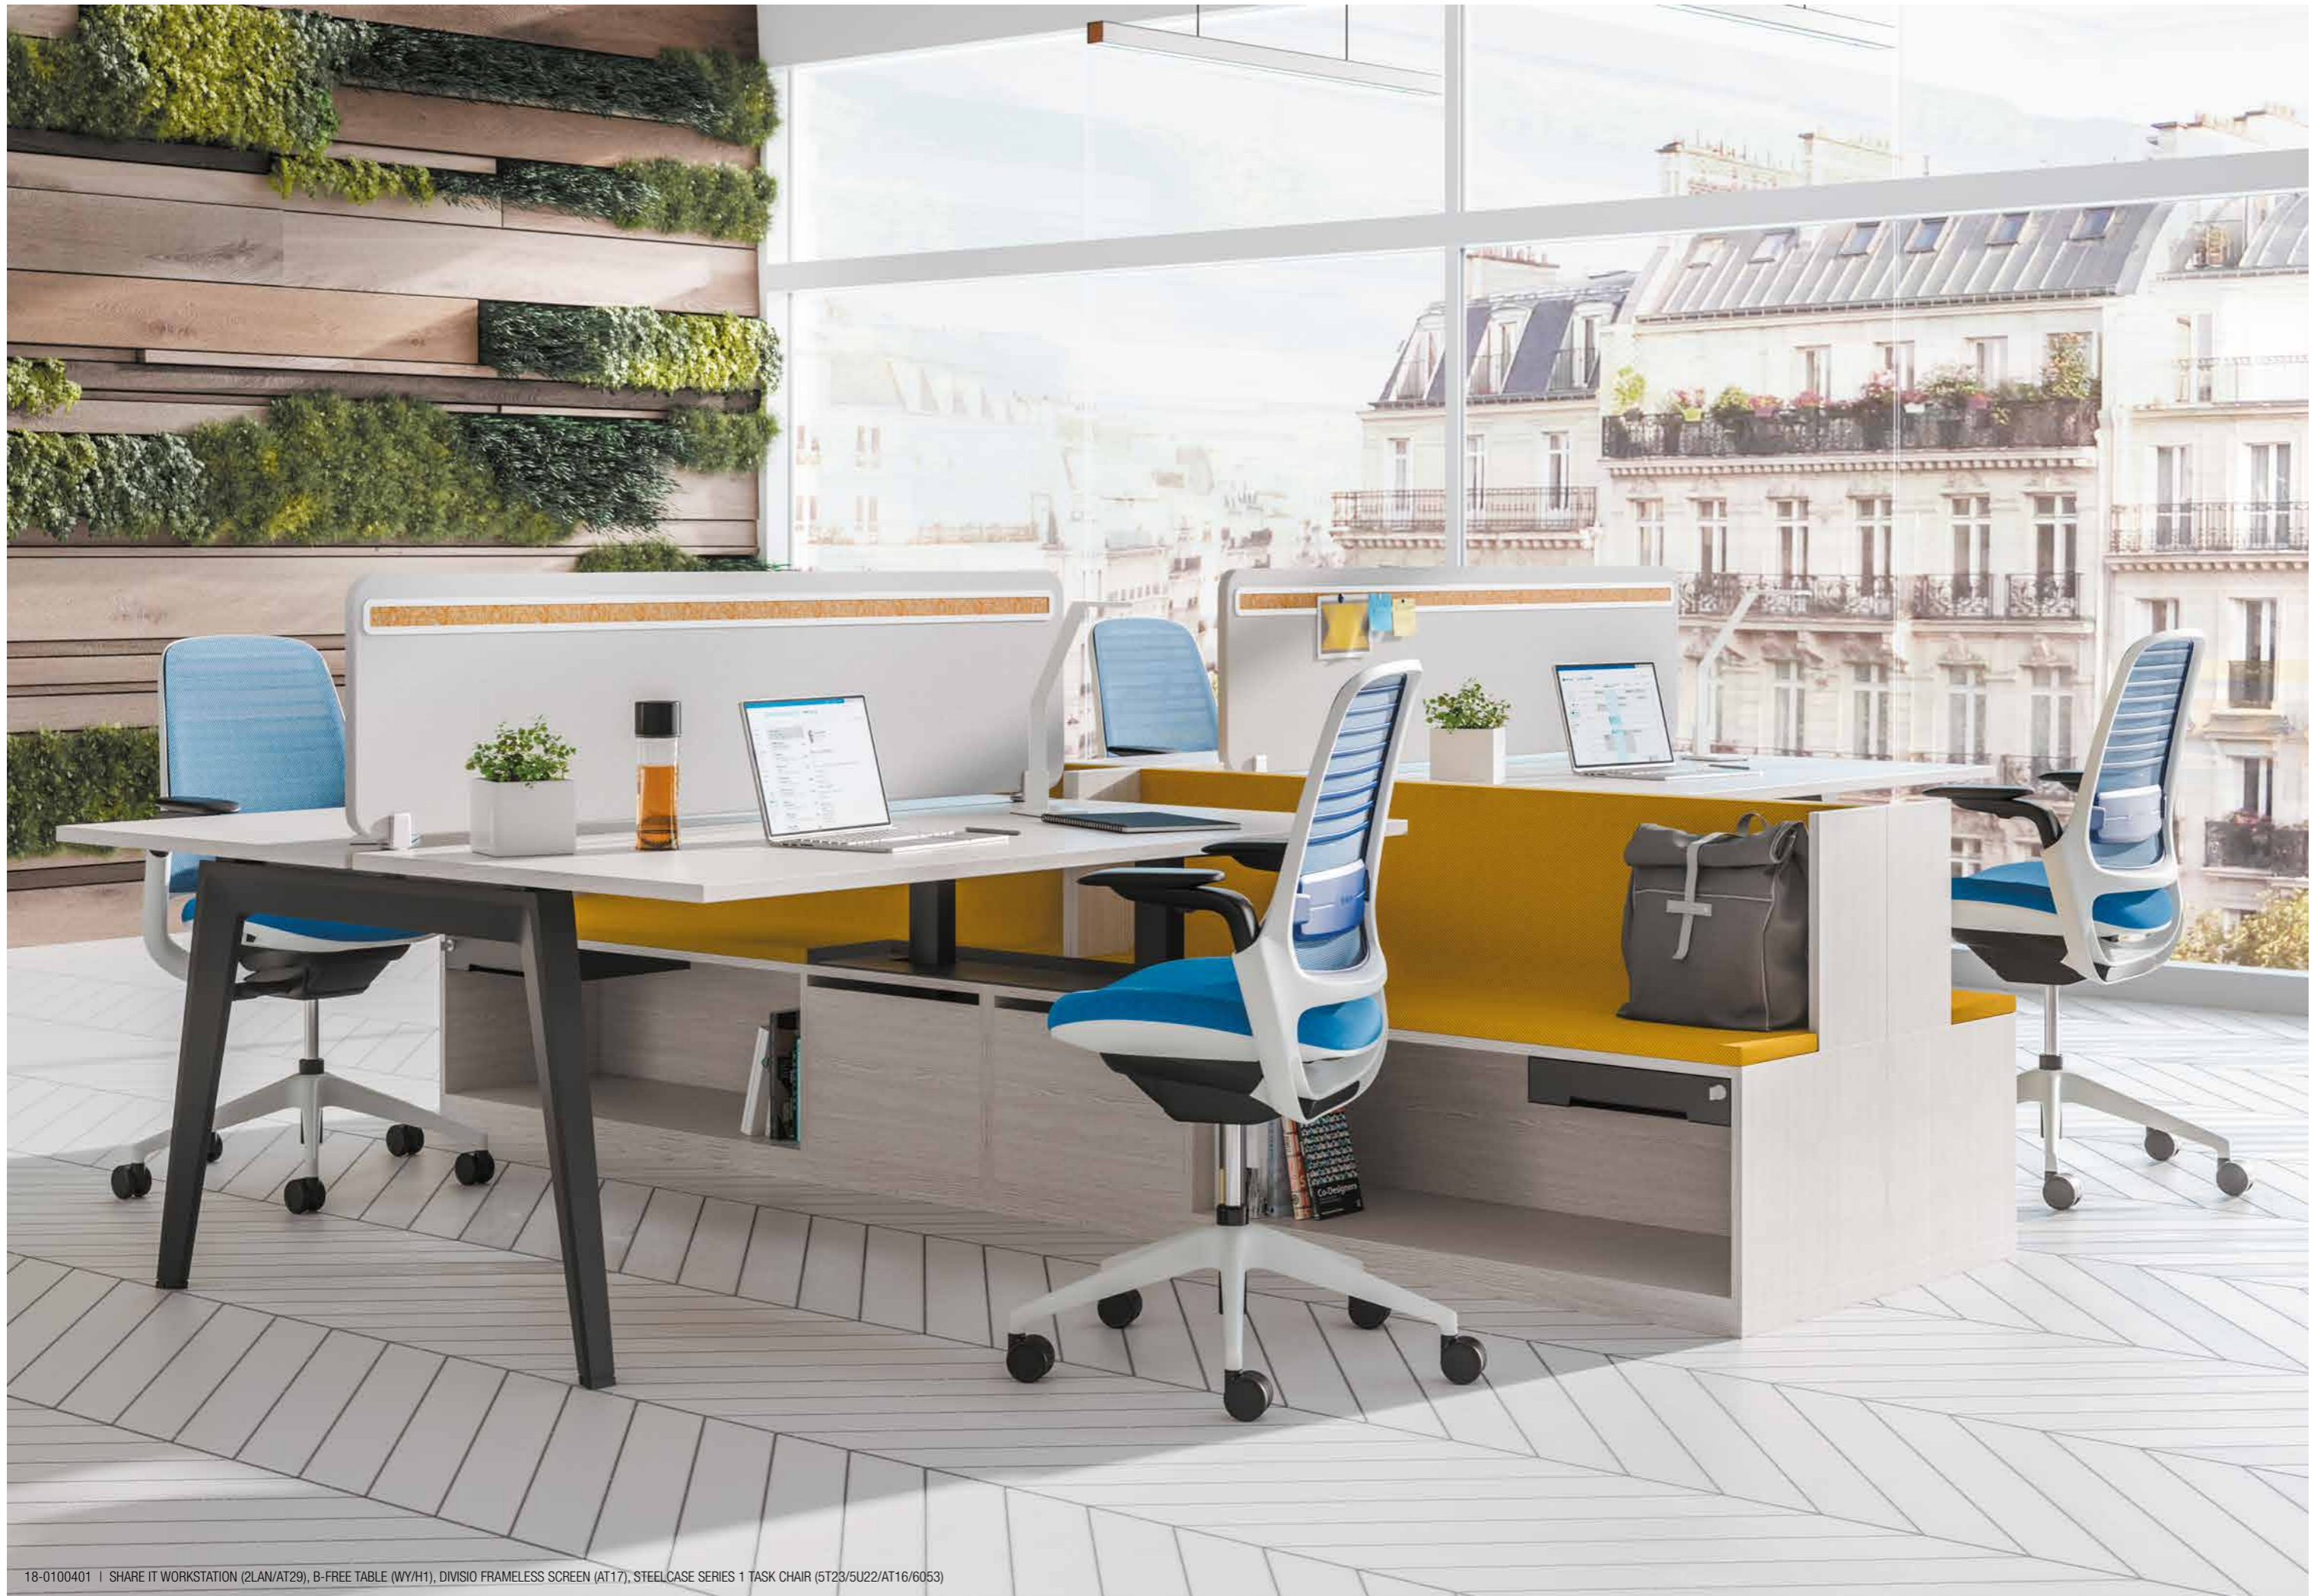

Integrated ambient lighting in the panel welcomes the user with controls easily within reach.

18-0101461

PEACE OF MIND

A locked drawer located within the workstation is the perfect spot for personal belongings that require extra security.

Share It Collaborative Elements

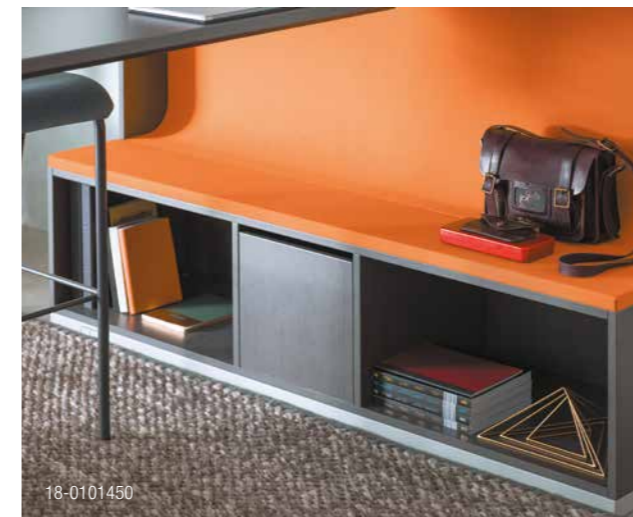

Every neighbourhood needs an area where people can come together and create. Share It Collaborative Elements support teams within the open plan.

Available in seated or standing height, with an integrated meeting table and lounge furniture at the back side, the Collaborative Element empowers workers with choice and control over where and how they work. The standard fabric panel helps with acoustics, keeping conversation private while collaborating.

Collaborate and share

Define space and create destinations with Share It Collaborative Elements. Monitors make it easy to stay connected. Share content during a meeting or use it to quickly inform neighbourhood residents of updates and changes on a project.

TEAM STORAGE

Built in storage is located beneath the collaborative unit without sacrificing additional floor space. It is great for items that more than one individual needs access to.

VIRTUAL PUCK

Virtual PUCK seamlessly integrates with any media:scape setting, allowing all participants to share information wirelessly, anywhere in the office.

Privacy in the open plan

Disruptions in the open-plan office cost more than productivity; they cost companies billions per year. Share It Collection brings wellbeing to the neighbourhood by offering shelter for individuals at the Workstation through ample storage and boundaries.

Collaborative Elements offer nearby meeting space for colleagues or guests, while an acoustic shroud provides an element of privacy. All of these aspects enhance focus work, while offering workers opportunities for connection, and giving users a sense of control over their work environment.

98%

Highly engaged and highly satisfied employees who said they have the ability to concentrate easily.

Connect to create

Transitioning to the open plan can be a tough adjustment, but Share It Collection gives back through connection and a sense of belonging. Increased knowledge sharing, impromptu discussions and spontaneous collaboration all happen more naturally outside the private office where colleagues are visible and gain each other's trust over time. Desks without boundaries create one large workspace, ideal for teams. Collaboration areas in the neighbourhood allow for quick transition between work modes and provide space to meet as a team.

A place for leaders

With Share It Collection leaders maintain the amenities of the private office, while fostering more connection among their team — keeping engagement high by cultivating a strong team culture and promoting transparency to help build trust. A balance between privacy and collaboration allows leaders to swiftly transition between all modes of work without sabotaging their wellbeing.

Configuration Thought Starters

The perfect elements for a good neighbourhood.
