Class A1 products will not contribute to fire in any stage, including fully developed fire. For this reason, they are assumed to be capable of satisfying all requirements of all lower classes as well.

Satisfying the same criteria as class B for the SBI-test according to EN 13823. In addition, under conditions of a fully developed fire these products will significantly contribute to the fire load a fire growth.

Warnings

General

- Do not use any sharp tools to open the packaging.
- We strongly advise against using power tools.
- Tripping hazard, mind your step.
- Do not put out cigarettes on the table.
- Not graffiti proof.
- Do not leave children unattended whilst playing on the table.
- To avoid danger of suffocation, keep plastic bags away from babies and children.
- Colours can differ over years and from batch to batch.

- Do not drag the table, but carry it with minimum 2 people.
- Anchoring the product has to be done by qualified people.
- For anchoring: use suitable bolts or screws from a specialized store depending on the material your terrace is made of.
- Stackable up to 3 pieces and protect with blankets.
- Always stack the tables with 2 people.
- Do not sit on the tabletop.
- Max. 1 person or 120 kg per seat.

- Do not use abrasive scouring powders or scourers as they will scratch the surface.
- Colour can fade to some extent when exposed to UV.
- Flame retarding - NEN-EN13501-1 A2-sl - Satisfying the same criteria as Class B for the SBI-test according to EN13823. In addition, under conditions of a fully developed fire these products will not significantly contribute to the fire load and fire growth.
- Dark colors can get very hot in sunny weather.

Product

- Do not stand or jump on the table.

Powder-coating

- White powder-coating requires more maintenance.

Applications

Residential: Virus is the solution we came up with while designing compact furniture for urban patios, rooftop terraces and balconies. The design responds to the trend for smaller living. The number of seats is variable, so Virus adapts to the number of family members. Perfect for city dwellers!

Project: For hospitality or corporate lunch areas, indoor and outdoors. Create a landscape of Viruses with matching colours, in different sizes. There is an ideal Virus table for every gathering.

Good to know

- Acquiring a Virus table is space saving. Virus requires only the exact space that is needed for a company of 2, 3, 4 or 5 people. The identical seating frame is configured around a tabletop that fits exactly what you need for a simple lunch or breakfast. Nothing more, nothing less.
- There is a version with a flat tabletop and a version with drainage holes & a parasol hole of ø38 mm.
- Virus combines perfectly with Acacia or Inumbrina ø250, ø320 (only with parasol foot).

Fun fact

The holes in the tabletop are a pattern of stars in the galaxy M101 (Pinwheel Galaxy).

F.A.Q.

Q: Why are the seats hollow?

A: For comfort reason and water draining.

Q: Is Virus stackable?

A: Yes, Stackable up to 3 pieces and protect with blankets.

Floor fastening

Our Virus picnic tables can be fixed to the floor, to prevent them from being moved, or worse, from being stolen. However, attaching it to the floor is not always enough, as bolts can always be unscrewed. We offer a connection piece that replaces the end cap at the bottom of a table leg. We strongly advise to use one piece per seat in order to attach the table firmly. A two-seater needs two anchoring holes, a three-seater needs three anchoring holes, and so on.
