

Coze

A fresh take on key archetypes

orangebox

Product Description

The Coze family offers a fresh take on key archetypes for a wide variety of office and hospitality settings.

Coze's fluid curves and soft edges make for a relaxed contemporary chair that's ideal for both workplace and hospitality environments. Coze armchairs – low back lounge, high back lounge and wingback – are perfectly complemented by a generous two-seat sofa, and by the newly added meeting/ café/dining chair, an upright armchair and café stool, which share the design personality of the original collection.

Featuring a new, turned wood leg, and offering a refined sitting position enhanced by a soft and supportive back, these new pieces extend the appeal of this successful and universally applied design collection. They have been manufactured to allow designers and specifiers a wide choice of fabrics and a diversity of fabric combinations.

The fully upholstered meeting chair and armchair are both available with a choice of wood legs, four star metal trestle base or five star castor base. The café stool is likewise available with a choice of wood finishes, enhanced by a structural metal foot rail.
