Redesign any space
for social distancing

Modular Shields are easy to integrate in existing workstations and provide the
desired level of protection with different applications.

The shields are protective polycarbonate or cardboard separations that can be
easily integrated frontally and laterally in existing desk and bench workstations.
STATEMENT OF LINE

The transparent polycarbonate version allows for full transparency and is easy to clean. The cardboard shield features a soft-edge design and is 100% recyclable, thus providing an environmentally friendly option that is easy to dispose of after use.

Dimensions

Height: 807 mm

Width: 1000 mm

Depth: 4 mm (Polycarbonate Version)
9 mm (Cardboard Version)

ORDER PROCESS

To order, please use the special codes directly below or contact the Steelcase Specials Team for customized sizes or quotations for large orders.

Polycarbonate Version

W1000   XMODS1000

Cardboard Version (Pack of 25)

W1000   XMODSCB1000

APPLICATIONS

Before installing the screen on the desk surface, it is recommended to remove all additional elements on the desk such as power outlets, lights and monitor arms. They can be reinstalled or simply moved on the empty side of the desk. The shields are compatible with pre-installed Divisio and Partito Screens.
